Portfolio: bit.ly/sahil-cad

TECHNICAL SKILLS

CAD & DESIGN

- AutoCAD
- Fusion 360 (Intermediate)
- 3D Part Modelling
- Assembly Modelling
- Engineering Drawing

MECHANICAL DESIGN

- Machine Components
- Engineering Drawing

MANUFACTURING

- Manufacturing Processes
- Basic Machining & Production Concepts

EDUCATION

B.E./B.Tech – Mechanical Engineering

KCES College of Engineering & Management, Jalgaon
3rd Semester | CGPA: 7.18

Diploma – Mechanical Engineering

Government Polytechnic, Jalgaon
Aggregate: 69.90%

SSC (10th)

MGM School, Nerul, Navi Mumbai
2022 | Percentage: 70.20%

LANGUAGES

English | Hindi | Marathi

PROFESSIONAL SUMMARY

Mechanical Engineering student with a Diploma in Mechanical Engineering, interested in Mechanical Design and CAD. Developing practical skills in AutoCAD and Fusion 360 through 3D modelling and mechanical component projects. Familiar with basic machine components, engineering drawing, and manufacturing concepts. Seeking a Mechanical Design/CAD internship to gain industry exposure and strengthen my design skills.

PROJECTS

Flange Coupling

| Fusion 360

- Created a 3D CAD model of a flange coupling with individual components.
- Developed the assembly with proper component relationships.
- Applied mechanical design concepts to component assembly.

Universal Coupling

| Fusion 360

- Designed and assembled a universal coupling using Fusion 360.
- Modelled yokes, cross and bearing components with accurate constraints.
- Studied the working arrangement and movement of coupling components.

Screw Jack

| Fusion 360

- Modelled screw jack components including screw, body and supporting elements.
- Developed the assembly using appropriate component relationships.
- Applied machine component and engineering drawing concepts during modelling.

V8 Engine

| Fusion 360

- Working on a detailed 3D V8 engine model using Fusion 360.
- Developing individual components and studying their assembly relationships.
- Strengthening understanding of complex mechanical assemblies and systems.

CERTIFICATIONS / ADDITIONAL TRAINING

- AutoCAD – (If completed, add details)
- Fusion 360 – (If completed, add details)
- Engineering Drawing – (If completed, add details)
- Design for Manufacturing – (If completed, add details)
